NEW PRODUCTION AND OFFICE FACILITY

NEW PRODUCTION AND OFFICE FACILITY - FIT FOR GROWTH

2016 was marked by moving into a completely new built production and office facility (see impressions) in Henstedt Ulzburg, which is around 15km north of Hamburg / Germany.

It is located directly at the main motorway with a 20 minute's drive to the Hamburg International Airport as well as 30 minutes to Germany's biggest harbor.

As the old facility was not sufficient for our increasing business, the new location supports our growth for the next years and leaves enough space for further future expansion on the same site.

Also part of the Hamburg office will move into the new office building in order to be closer to the production site.

PRODUCTION LINE IN HENSTEDT ULZBURG

FLEXIBLE PRODUCTION OF TAILOR-MADE MIXTURES

Our new 800 Liter horizontal batch mixer can produce a homogeneous mix of 500 kg additives in a gentle mixing time of just 4 minutes.

Carton box closing-line, directly after control sifting and filling, before metal detection.

As our main packing size is a 25 kg cardbox or 25 kg paper or PE bag, we offer also packing in other sizes.

AGENTS WANTED:

We are looking for agents in different regions of the world.

REQUIREMENTS:

Knowledge of the local flour milling market and preferable good contacts to the flour mills. Experience in additive business is very important.

Please contact us under:
info@edge-foods.de
